

MCM Detox Plus

The Complete Solution for Comprehensive Detoxification and Cellular Health

Advanced Detoxification with Full Spectrum Cell, Tissue, Organ and DNA Support in One Bottle

- ✓ **Eliminates** Heavy Metals, Toxins, and Environmental Pollutants.
- ✓ **Supports** Mitochondrial Function, Liver Health, and Brain Performance.
- ✓ **Simple**, Fewer Pill Approach for Maximum Efficacy.
- ✓ **Backed by Science** for Superior Detoxification and Immune Support.

MCM Detox Plus is a one-of-a-kind formula that redefines detoxification by integrating toxin elimination with cellular repair and regeneration. Powered by clinically backed ingredients like **N-Acetyl-L-Cysteine (NAC)**, **Citrus Pectin**, **Chlorella**, and **Alpha Lipoic Acid**, it effectively addresses a wide range of environmental toxins—including heavy metals, mycotoxins, chemical pollutants, PFAS, plastics, biofilm, and radioactive materials. Simultaneously, it supports mitochondrial function, cellular and DNA repair, cognitive health, immune resilience, and gut integrity. Designed for simplicity and efficacy, MCM Detox Plus offers a comprehensive solution for those seeking to address the root causes of toxin-related health challenges while supporting total-body repair.

MCM Detox PLUS is a one-of-a-kind formula designed to eliminate all environmental toxins while supporting critical aspects of healing, repair, and regeneration. It provides robust support for cell, tissue, mitochondrial, and DNA repair and regeneration.

This unique formula excels in providing a truly comprehensive detoxification solution that addresses ALL environmental toxins, including toxic metals, as well as mycotoxins, environmental chemical toxins, plastics, PFAS, and radioactive materials without the complexity of numerous bottles, pills, excessive cost, and common side effects found with the use of other common detox protocols on the market today. In addition, MCM Detox Plus by BioOne Sciences is simple to add to your regimen because it can be taken with your other supplements and with or without food.

This multifaceted, fewer pill approach makes MCM Detox Plus superior to other products. It's not just a detox supplement; it's a comprehensive health enhancer, ensuring that it eliminates toxins effectively and provides robust physical and cognitive support during detoxification.

Unlike other products that might provide partial solutions or require the consumption of multiple different supplements, the meticulously crafted formula in MCM Detox PLUS delivers a full-spectrum detoxification and biofilm-disrupting solution while simultaneously supporting mitochondrial systems, liver and kidney detoxification, cell, tissue, and DNA repair and regeneration, and brain and cognitive function—ALL in one bottle.

Each ingredient is carefully selected and provides therapeutic doses, ensuring you receive the full benefits without purchasing several different supplements.

What sets MCM Detox Plus apart is its robust, broad-spectrum efficacy and our commitment to using natural and effective ingredients that work harmoniously with the body's detoxification processes.

This synergy of ingredients at therapeutic doses is a game-changer in the detox supplement market, offering a level of support and efficiency that other products simply cannot match. Its formula is designed not only to cleanse but also to strengthen and protect, fortifying the body's defenses against the ongoing onslaught of environmental toxins.

Ingredient Highlights

✔ **N-acetyl-L-cysteine (NAC)** is a key supplement that supports the health of mitochondria, which are the energy centers of our cells. It acts as a helper molecule in chemical reactions that generate energy in the body and aid in detoxification. Besides energy production and detoxification, NAC is crucial for several other critical cellular processes, including activating specific proteins in DNA repair, maintaining the immune system, and regulating how long cells live.

As we age, the levels of Glutathione in the human body naturally decrease. This decrease is linked to several age-related conditions, such as cognitive decline, cancer, metabolic issues, muscle loss, and overall frailty. Supporting NAC levels can potentiate mitigating these accelerated aging conditions related to deficient glutathione levels.

The Ultimate Detoxification Warrior: NAC is a beacon of detoxification excellence in our formula. As a precursor to the mighty antioxidant glutathione, it spearheads the neutralization of an extensive array of harmful toxins and heavy metals, offering unparalleled detoxification support.

Guardian of Cellular Integrity: NAC excels in preserving cellular health, ensuring that each cell remains robust and resilient against the onslaught of toxins.

Mycotoxin Nemesis: It's especially formidable against mycotoxins thanks to its ability to elevate the body's glutathione levels.

Environmental Chemical and Heavy Metal Toxin Eliminator: As an environmental detoxifier, NAC is unmatched in its ability to cleanse the body of many chemical and metal toxins, safeguarding your health against modern-day pollutants.

Liver Health Advocate: NAC provides indispensable support to the liver, empowering it to perform its detoxifying duties more efficiently.

Champion of Kidney Health: NAC significantly benefits kidney function and reduces inflammation, making it a stalwart defender of kidney health, particularly vital in chronic kidney disease.

Support Respiratory Health: NAC greatly benefits respiratory health and is also often used in respiratory treatments for conditions caused by COVID. It can break up and dissolve mucus in the airways. Oxidative stress is a known contributor to lung inflammation and can damage lung tissue. NAC also reduces oxidative stress in the respiratory system.

Radiation Defense Mechanism: Its potential to shield the body from radiation and radioactive materials like cesium, uranium, and strontium fortifies it as a crucial component in the fight against radiation-induced damage.

Immune Support: N-acetyl cysteine (NAC) supports a healthy inflammatory response by mitigating oxidative stress from free radicals, thanks to its role as a precursor to glutathione, a powerful free radical scavenger. It also helps modulate the immune system by regulating pro-inflammatory cytokines like IL-6 and TNF-alpha. This is achieved by inhibiting NF-kB activation, which is particularly beneficial in conditions like COVID-19, which induces a cytokine storm. Furthermore, NAC enhances the body's defense mechanisms by boosting T-cell production, crucial for combating infections and diseases.

Biofilm Disruptor: NAC is a powerful tool for disrupting biofilm due to its antimicrobial properties.

Cognitive and Brain Chemistry Balance Support: When combined with the synergistic ingredients in MCM Detox Plus, NAC shows pro-cognitive benefits in AD patients and older adults.

Backed by Science: Its efficacy against various toxins is not just claimed but backed by rigorous scientific research, cementing its position as a detoxification powerhouse.

- ✔ **Citrus Pectin** purges toxins from the bloodstream, making it essential for systemic detoxification. It plays a significant role in supporting the gut microbiome, which is crucial for overall digestive health and effective detoxification.

As we age, the levels of Glutathione in the human body naturally decrease. This decrease is linked to several age-related conditions, such as cognitive decline, cancer, metabolic issues, muscle loss, and overall frailty. Supporting NAC levels can potentiate mitigating these accelerated aging conditions related to deficient glutathione levels.

Excellent binding properties: Its unparalleled ability to bind and rid the body of mold and chemical toxins shields against these common yet often overlooked environmental hazards.

Heavy Metal Chelator: Citrus Pectin acts as a natural chelator for heavy metals, gently and effectively aiding in their removal from the body. Additionally, it shows promise in helping the body detoxify from radioactive toxins, providing an added layer of protection in our increasingly contaminated environment.

Biofilm Protector: Citrus Pectin also helps reduce biofilm formation, critical for enhancing the body's detoxification capabilities and preventing microbial imbalances.

- ✔ **Chlorella's** Chlorella's cell wall binds to heavy metals and other toxins in the gut, preventing their absorption into the bloodstream. This chelation and binding process reduces the body's toxic load.

Robust mitochondrial and cellular support: Chlorella contains vitamins, minerals, and antioxidants that nourish and support mitochondrial health, enhancing energy and vitality. Its high nutrient content, including essential amino acids, chlorophyll, and beta-glucans, helps boost the immune system, making it more effective in fighting toxins and infections.

Microbiome Integrity: Chlorella supports a healthy gut microbiome, essential for proper detoxification and overall health.

Biofilm Eliminator: By reducing biofilm formation, Chlorella helps maintain a healthier gut microbiome and environment, which is crucial for proper detoxification.

- ✓ **Acetyl L-carnitine (HCL)** is crucial in transporting fatty acids into mitochondria for energy production, which is essential for the body's detoxification processes.

Boosts mitochondrial function: supports brain health, enhances cognitive function, and aids in detoxifying neurotoxins.

Brain regeneration and protection: Acetyl L-Carnitine protects against neurological damage caused by toxins and oxidative stress.

- ✓ **Alpha Lipoic Acid** is a potent antioxidant that neutralizes free radicals. It is also known to provide effective chelation properties, binding to heavy metals and facilitating their removal from the body. Alpha lipoic acid works synergistically with other antioxidants, like vitamins C and E, to enhance the body's overall detoxification capacity.

Liver Support: Alpha Lipoic Acid plays a significant role in supporting liver health, one of the primary detoxifying organs in the body

Neurological protection: Alpha Lipoic Acid offers neuroprotective benefits, shielding the brain from oxidative stress and toxin-induced damage.

- ✓ **Nicotinamide Riboside Chloride (NR)**, a precursor to NAD⁺, elevates NAD⁺ in cells, which is crucial for metabolic processes, including detoxification, DNA repair, and sirtuin activation. By boosting NAD⁺, NR supports the body's natural detoxification pathways, helping to remove toxins more efficiently.

Mitochondrial Production: It also supports mitochondrial function, essential for energy production and overall cellular health.

Brain and Neurological Function: NR contributes to brain health by supporting neuronal function and protecting against age-related cognitive decline.

- ✓ **Shilajit Extract** (Humic and Fulvic acid) enhances the bioavailability of other ingredients in the detox formula, ensuring the body more effectively utilizes them.

Toxin Binder: Humic and fulvic acid bind to many toxins, facilitating their removal and reducing the body's toxic load.

Mitochondrial enhancement and cellular protection: It promotes mitochondrial efficiency, protects cells from damage, aids cellular repair, and promotes overall cellular health, which is crucial for the body's detoxification processes.

Biofilm Reduction: Humic and fulvic acid have properties that reduce biofilm formation in the gut, which is essential for maintaining a healthy gut environment conducive to detoxification.

✓ **Biotin** is crucial in various metabolic processes, aiding in the breakdown and subsequent elimination of toxins from the body.

Cellular Metabolism: It enhances overall metabolic health and is vital for the body's natural detoxification processes.

Liver and Kidney Support: Biotin supports liver function, a key organ in detoxification. It also assists kidney function, ensuring efficient filtration and eliminating toxins.

✓ **L-glutamine** is vital in maintaining gut integrity during the body's detoxification processes. As the most abundant amino acid in the body, it helps strengthen the lining of the gut, preventing the entry of toxins and pathogens into the bloodstream—a key factor in healing leaky gut syndrome.

Cellular Repair and Regeneration: L-Glutamine is essential for cellular repair and regeneration, particularly in the digestive tract, where it nourishes the intestinal lining cells and supports the growth of beneficial gut bacteria.

Immune Support: Additionally, it aids in immune function by providing energy to immune cells, thereby enhancing the body's natural defense mechanisms.

Recommended Use: Take 2 capsules three times per day with meals or as directed by your healthcare practitioner for advanced protocols.

Supplement Facts		
Serving Size 6 capsules		
Servings Per Container 30		
	Amount Per Serving	% DV
Biotin	200 mcg	667 %
N-Acetyl-L-Cysteine (NAC)	950 mg	**
Citrus Pectin	900 mg	**
Chlorella Powder (Broken Cell)	750 mg	**
Acetyl L-Carnitine HCl	500 mg	**
Alpha Lipoic Acid	300 mg	**
Nicotinamide Riboside Chloride	200 mg	**
Shilajit Extract (50% Fulvic Acid)	200 mg	**
L-Glutamine	200 mg	**

*Percent Daily Values (DV) are based on a 2,000 calorie diet.
**Daily Value (DV) not established.

Other Ingredients: Vegetable Cellulose (Capsule), Rice Flour
