

# X Microbe Plus

*Comprehensive  
Antimicrobial, Immune &  
Detoxification Support*

## All-in-One Antimicrobial, Detox & Immune Support

- ✓ **Multi-Action Antimicrobial Defense** – Eliminates bacteria, viruses, fungi, and parasites, supporting gut, immune, and systemic balance.
- ✓ **Immune Modulation & Inflammation Control** – Helps regulate immune responses to prevent **overstimulation or suppression**, while **calming post-viral cytokine storms**.
- ✓ **Biofilm Disruption & Detox Support** – Supports **lymphatic drainage, liver detox, and pathogen clearance**, reducing toxic burden.
- ✓ **Nervous System & Cardiovascular Protection** – Helps down regulate the **nervous system, support circulation**, and **reduce cardiovascular stress caused by chronic infections**.

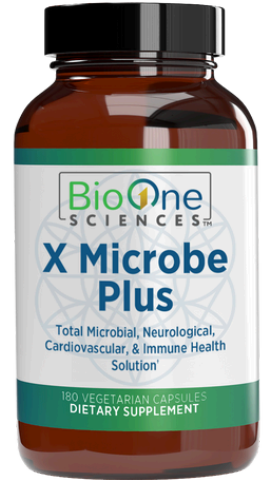

X Microbe Plus is a **multi-action, broad-spectrum antimicrobial formula** designed to target **bacteria, viruses, fungi, and parasites** while supporting **immune modulation, detoxification, and inflammation control**. This unique combination of clinically studied ingredients that work to **break down biofilms, clear chronic infections, regulate cytokine responses, and optimize lymphatic and liver detox pathways**.

Unlike conventional antimicrobial formulas that only focus on **pathogen elimination**, X Microbe Plus **goes beyond microbial defense** to support **gut integrity, nervous system balance, and cardiovascular health**—offering a **complete solution for practitioners addressing chronic infections, post-viral syndromes, and immune dysregulation**.

**This formula is designed for patients struggling with:**

- ✓ **Chronic infections**, Lyme disease, Epstein-Barr, HHV-6, and other persistent viruses
- ✓ **Parasites**, bacterial overgrowth (SIBO), mold, or fungal imbalances
- ✓ **Immune dysfunction** and cytokine storms post-viral infection
- ✓ **Toxin accumulation**, biofilm-related conditions, and inflammation-driven illness
- ✓ **Nervous system dysregulation**, brain fog, and cardiovascular stress from microbial burden.

By combining clinically validated herbal antimicrobials, biofilm disruptors, lymphatic and detox support, X Microbe Plus offers a full-spectrum antimicrobial solution—without the need for excessive supplement stacking.

## Ingredient Highlights

X Microbe Plus combines clinically researched ingredients including broad spectrum antimicrobials, nervous system and cardiovascular support, and immune-modulating compounds to provide comprehensive antimicrobial and systemic engine support.

Each ingredient was carefully selected to target harmful pathogens, optimize immune balance, support the nervous system and cardiovascular system and support the GI system, all in one comprehensive formula.

- ✓ **Andrographis Paniculata:** Provides broad-spectrum antimicrobial activity against bacteria, fungi, parasites, and viruses. Modulates immune function to balance overactive and suppressed responses and supports liver detoxification and inflammation reduction.
- ✓ **Nattokinase:** A powerful biofilm disruptor, breaking down protective coatings used by pathogens. Enhances circulation and oxygen delivery while preventing excessive clotting and supports lymphatic drainage and immune clearance of toxins.
- ✓ **Scutellaria Baicalensis (Skullcap):** Calms the nervous system, reducing stress, anxiety, and neuro-inflammation. Regulates immune responses, making it beneficial for autoimmune conditions and supports cardiovascular health, blood pressure balance, and circulation.
- ✓ **Black Walnut Hull & Sweet Wormwood:** Powerful antimicrobial and anti-parasitic agents that help eliminate gut infections and supports gut microbiome balance and detoxification.

- ✓ **Pau D'Arco & Grapefruit Seed Extract:** Provides broad-spectrum antimicrobial defense against fungi, candida, and chronic viral infections, and enhances immune resilience and inflammation control.
- ✓ **Black Cumin Seed & Odorless Garlic:** Combats bacteria, fungi, and viruses while reducing inflammation, and supports gut, liver, and immune function for long-term microbial balance.

## Recommended Use

Protocol Type	Dosing Recommendation
Acute Infection Support	Take 2 capsules, 3x daily with meals for 7–14 days.
Chronic Infection Recovery	Take 2 capsules, 2x daily for 2 weeks, then 1 capsule, 3x daily for maintenance.
Preventive & Immune Maintenance	Take 1 capsule daily for immune and detox support.

*If digestive discomfort occurs, reduce dosage and gradually increase as tolerated.*

## Supplement Facts

Serving Size 6 capsules  
Servings Per Container 30

	Amount Per Serving	% DV
Andrographis Paniculata Extract	1200 mg	**
Black Walnut Hull ( <i>Juglans nigra</i> ) Powder	400 mg	**
Chinese Skullcap ( <i>Scutellaria baicalensis</i> ) Extract	300 mg	**
Black Cumin ( <i>Nigella sativa</i> ) Seed	200 mg	**
Grapefruit Seed ( <i>Citrus paradisi</i> ) Extract	200 mg	**
Odorless Garlic ( <i>Allium sativum</i> ) Extract	200 mg	**
Olive Leaf ( <i>Olea Europaea</i> ) Extract	200 mg	**
Pau D'Arco Bark ( <i>Handroanthus impetiginosus</i> ) Powder	200 mg	**
Sweet Wormwood ( <i>Artemisia annua</i> ) Powder	200 mg	**
Nattokinase ( <i>Bacillus subtilis Natto</i> ) (Natto seed)	100 mg (20000 FU/g*)	**

\*Fibrinolytic Units

\*\*Daily Value (DV) not established.

**Other Ingredients:** Vegetable Cellulose (Capsule), Rice Flour
